Mr. John W. Coffey
Deputy Director for Support
Central Intelligence Agency
Washington, DC 20505

Dear Mr. Coffey:

This will refer to Commissioner Kinsey's letter to you of June 25, 1971, concerning approximately 330 acres of excess at the Fairbank Highway Research Station, McLean, Virginia.

As a result of further discussion of the needs of your agency and those of the National Park Service, Commissioner Kinsey's office has agreed to an adjustment in the acreage whereby a portion of the property adjacent to the George Washington Memorial Parkway will be transferred to the National Park Service. The areas are shown on the enclosed sketch. You will notice that the Park Service will receive approximately 230 acres and CIA would receive the balance containing approximately 100 acres.

In my conversation with you, it is understood you have no objection to the current division of the acreage and that the acreage shown in your request for transfer (GSA Form 1334) may be adjusted accordingly.

We will now proceed to process your application for final approval.

Sincerely,

L. E. NUNNALLY
